

RAISE YOUR COMFORT LEVEL WITH BARD HVAC

Bard's durable and efficient wall-mount HVAC units are already the number one choice for modular buildings, but now Bard is ramping up comfort as well with Comfort Enhancement Options for the ultimate in Indoor Air Comfort.

INDOOR AIR COMFORT

Indoor Air Comfort (IAC) is of great importance to end-users of modular buildings – in fact, comfort is one of the top considerations of tenant and consumer satisfaction. Bard can help with Comfort Enhancement Options that greatly enhance the three main components of IAC:

HUMIDITY CONTROL

- Increases comfort
- Protects against moisture
- Helps eliminate mold and mildew
- Maintains fresh look and feel

FRESH AIR/VENTILATION

- Creates a more comfortable environment
- Allows for positive pressurization
- Eliminates stale air
- Increases efficiency
- Meets federal regulations

SOUND REDUCTION

- Quiet operation increases comfort and satisfaction
- Reduces vibration sound
- Reduces operational sound

BARD COMFORT ENHANCEMENT OPTIONS
