Climate Control Solutions

Standard Features:

BALANCED CLIMATE™

- Use of Balanced Climate feature removes up to 35 % more humidity than standard or basic wall-mount units on the market
- In heat pump, provides quieter, warmer start-up

HYDROPHILIC EVAPORATOR COILS

- Increases wettability, therefore increasing cascading effect
- Increases speed of drainage which helps prevent growth of mold and bacteria

NATURAL FIBER INSULATION

- Fiberglass replaced by cotton insulation
- Cleaner and healthier environment

BRUSHLESS DC BLOWER MOTOR/ECM

- Electronically Commutated Blower Motor allows extremely efficient motor run with continuous fan
- Quieter blower operation

ENCLOSED CONDENSER FAN MOTOR

- Totally Enclosed Condenser Fan Motor means longer life, more durability, higher heat rating, and better operation in low ambient conditions

LOCKABLE ACCESS PANEL

- Added safety and security
- Protects access to breaker
- (lock not included)

Optional Features:

- Soft-Shift Dehumidification
- Dirty Filter Indicator
- 100 % Full Flow Economizer
